PORTS DE BRUGES ET DE ZEE-BRUGGE

Ports concédés pour une durée de 75 ans à la **Compagnie des Installations Maritimes de Bruges**, en vertu de l'Arrêté Royal du 10 Janvier 1896

ZEE-BRUGGE

Le port d'escale comprend :

1° **La jetée en mer**, d'un développement total de 2.487 mètres, appuyant les quais d'escale (1.571 mètres de développement). Le terre-plein entre la jetée et les murs de quai, de 70 mètres de largeur, est complètement pavé et porte trois hangars ayant les dimensions suivantes :

Le hangar n° 1, 175 mètres de longueur sur 30 mètres de largeur.
» n° 4, 120 » » 15 » »
» n° 5, 120 » » 15 » »

Une partie du hangar n° 1 est aménagée en bâtiment de recettes et gare pour voyageurs. Le môle est pourvu d'un réseau complet de voies ferrées desservant les hangars et le terre-plein.

Les quais d'escale ont un développement de 1.571m,50, dont :

746m,50 fondés à 8m,00 sous marée basse de vives eaux.
375m,00 » 9m,50 » »
450m,00 » 11m,50 » »

2° **La rade abritée** par le môle a une superficie d'environ 150 hectares ;

3° **Le chenal d'accès** à l'écluse maritime. — Ce chenal, d'une longueur de 750 mètres, débouche dans la rade où il est délimité par deux jetées basses portant des feux à leur extrémité. Son plafond est à la cote (— 6 m.). Il a 50 mètres de largeur au plafond et 116 mètres à la flottaison ;

4° **L'écluse maritime**, située à l'amont du chenal, donne communication entre celui-ci et le canal vers les bassins de Bruges. Longueur totale 282 mètres ; longueur du sas 158 mètres ; largeur entre bajoyers des têtes 20 mètres. Les deux ponts et les deux portes roulantes sont actionnés électriquement. Le busc aval de l'écluse est établi à la cote (— 5m,50) ;

5° **L'arrière-port de Zee-Brugge** est constitué par un élargissement du Canal Maritime qui ici atteint 50 mètres de largeur au plafond et 126 mètres de largeur au plan d'eau. Du côté Est de l'arrière-port est situé le Bassin Sanitaire qui offre deux accostages de 25 mètres destinés aux navires devant subir les formalités de quarantaine, mais qui, en temps ordinaire, peuvent servir aux opérations commerciales. Du côté Ouest se trouve la première des trois darses prévues à Zee-Brugge. Dimensions : longueur moyenne, 500 mètres ; largeur à la flottaison, 130 mètres. Dans toute l'étendue de l'arrière-port, la profondeur d'eau est de 8 mètres.

OUTILLAGE

1 bigue flottante de 55 tonnes. — Grues électriques de 1.500 et de 2.500 kilogrammes.

CANAL MARITIME

Longueur 10 kilomètres ; largeur 22 mètres au plafond, 70 mètres à la flottaison. La profondeur en est de 8 mètres. Vers le kilomètre 5 se trouve un pont tournant pour route offrant une passe navigable de 22 mètres de largeur. A Lisseweghe, la communication entre les rives est assurée par un passage d'eau. De beaux terrains convenant pour l'établissement d'industries sont situés le long du canal.

BASSINS DE BRUGES

Le port comprend trois bassins, à savoir : le **Bassin Ouest**, ayant 550 mètres de longueur. La profondeur en est en partie de 6m,50 et en partie de 8 mètres. Il renferme 620 mètres de quais et a 90 mètres de largeur à la flottaison.

Le **Bassin Est** a 370 mètres de longueur. Il est bordé de murs de quai dont le développement atteint 620 mètres. Il a 90 mètres de largeur et 8 mètres de profondeur.

Sur les rives Est et Ouest du Bassin Est sont établis deux hangars : le n° 1, de 150 mètres de longueur sur 50 mètres de profondeur, divisé en 3 compartiments ; le n° 2, à étage, de 130 mètres de longueur et 50 mètres de profondeur, divisé en 6 compartiments. En outre, il existe deux hangars, l'un de 60 mètres × 30 mètres, l'autre de 50 × 30 mètres spécialement affectés à l'entreposage des nitrates. Au Nord du hangar n° 1 sont situés 9 parcs destinés au dépôt des charbons et surmontés chacun d'une voie de déchargement aérienne. Un dixième parc à charbon existe au Sud des hangars à nitrate.

Le **Bassin Nord** ou d'évolution relie entre eux les deux bassins ci-dessus et les met en communication avec le Canal Maritime. Il a 300 mètres de largeur et 220 mètres de longueur moyenne. Les quais y atteignent un développement de 120 mètres.

Au fond Sud du Bassin Ouest se trouve l'**Écluse Semi-Maritime** donnant communication avec le canal d'Ostende et le réseau des voies navigables du pays. Elle a une largeur de 12 mètres, une longueur totale de 172 mètres dont 97m,40 pour le sas, une profondeur sur le busc aval de 4m,75.

Les installations sont desservies par un réseau de voies ferrées tant de l'État que des Chemins de fer Vicinaux. De vastes terre-pleins sont disponibles, tant pour les extensions du port que pour le dépôt des marchandises.

TO MASTERS, OFFICERS, AND APPRENTICES OF THE MERCANTILE MARINE.

Eight Reasons WHY they should become Members of the Mercantile Marine Service Association. . .

BECAUSE it is the Recognised Head of the Nautical Members of the Merchant Service, and is *Governed entirely by Nautical Men* in the interests of Masters and Officers particularly, and the Merchant Service generally.

BECAUSE it Defends its Members before Courts of Inquiry, and in other matters where Certificates are at stake.

BECAUSE it obtains Appointments to Ships for Members out of employment, many thousands having been successful through the medium of the Association.

BECAUSE it provides for the Widows and Orphans of Members by means of the Provident Branch.

BECAUSE it assists those Unfortunate Members, who, through age, infirmity, and other causes, are in reduced circumstances, many Shipmasters and Officers having been provided with Pensions or comfortable Homes at the Institution at Egremont.

BECAUSE it has improved the condition of Masters and Officers by obtaining redress of wrongs: reforms in Courts of Inquiry and Board of Trade procedure; amendments in oppressive Shipping Laws, and in many other ways.

BECAUSE it is the *ALMA MATER* for Officers of the Merchant Service. It trains young Cadets in the School Ship *Conway*; gives educational facilities on shore for its Members; follows them throughout their whole professional career, guarding with a jealous eye their rights and privileges, and generally seeking their welfare.

BECAUSE it is the largest, oldest, and most influential Corporation of its kind in existence, and has the greatest record of good work for the Mercantile Marine.

4. — Enables any two of thousands of sentences, ports, rates, quantities and dates to be coupled in one word, or with the names of steamers. An abridged edition of Bentley's Phrase Code is included for this purpose.
5. — Tens of thousands of general sentences and Merchants' phrases have been inserted and its scope widened.
6. — Is intended for Passenger and Mail S. S. Companies as well as for cargo steamers, sailing vessels, Brokers and Shippers.
7. — Has 4000 ports and ranges of ports.
8. — Has been brought up to date, including Frozen Meat and Refrigerated Cargo.

12. — The Code is already in use in every part of the World.
13. — About 100,000 sentences have been sent in by users of SCOTT'S CODE with permission to insert them in the New Edition, thus making it of an exceptionally practical character.
14. — Price with 153,000 sentences and 100,000,000 combinations, only £ **2 12** s. **6** d., the cost of which is rapidly saved by the exceptional facilities which the Code affords.
